

# Social Entrepreneurship as a Tool to Enhance Researcher Wellbeing

Diana Freiberga, Zigmunds Freibergs, D&Z Projects, Ltd.

## We support Early Career Researchers (ECR) in Latvia

by organizing seminars and raising awareness of:

- Mental health & wellbeing
- Communication & career development skills

We collaborate with Latvian research and higher education institutions to:

- Receive funding
- Get access to the ECRs
- Promote organizational change

Our mission is to empower young scientists and help them realize their full potential.

*We believe that researcher wellbeing should be a part of scientific excellence.*
